

PUBLIC INFORMATION CENTER

Date: April 30, 2025; 5:00 PM – 7:00 PM

Quaker Neck Road (CR 657) Resurfacing and Safety Improvement Project Between The City of Salem / Township of Mannington Border (M.P. 1.30) and Kerlin Road (M.P. 5.65) Mannington Township and Alloway Township, Salem County, NJ

Salem County, which is committed to developing transportation improvements that best balance transportation needs, the environment, community concerns, and costs, will hold a Virtual Public Information Center (PIC) to provide local residents and businesses with information on the resurfacing of Quaker Neck Road (CR 657) in the City of Salem and Townships of Mannington and Alloway, Salem County, NJ. You are encouraged to actively participate in viewing the Virtual PIC presentation. Comments can be made during the webinar, by mail, or by e-mail.

THE MEETING

The Public Information Center will be held virtually on Wednesday, April 30, 2025, from 5:00 PM to 7:00 PM. The project will be presented by Pennoni Associates, Inc. Please register ten (10) minutes in advance for this webinar at:

Passcode: 080116

BACKGROUND

Salem County has undertaken a project to mill and resurface approximately 4.35 miles of Quaker Neck Road (CR 657) between the City of Salem / Township of Mannington Border (M.P. 1.30) and Kerlin Road (M.P. 5.65) in Alloway Township. Approximately 2,070 ft of guide rail will be replaced between 130 ft west of North Union Street (M.P. 1.11) and Kerlin Road (M.P. 5.65). Signing, and striping will be upgraded. The goal of this project is to make improvements to the roadway surface and enhance public safety for all roadway users.

PROJECT CONSULTANT: PENNONI ASSOCIATES, INC.

During design, Pennoni will strive to identify feasible, constructible design concepts, minimize the time for permit acquisition, minimize the impact to the traveling public, reduce long term maintenance, and provide a cost-effective solution within the project schedule.

PROPOSED CONSTRUCTION

Salem County proposes to mill and resurface approximately 4.35 miles of Quaker Neck Road (CR 657) between M.P. 1.30 and M.P. 5.65:

- Resurface the existing roadway within the existing roadway footprint (no widening is to take place).
- Replace/upgrade existing sections of guiderail.
- Improve signage throughout the corridor.
- New striping for lanes and shoulders.

PROPOSED CONSTRUCTION

Construction will be staged and performed with lane and shoulder closures. Alternating traffic maintained through the work zone during construction.
